REPORT OF SECRETARY.

To the Board of Directors of the Kansas State Historical Society:

THE work of the Society during the year 1900 has been quite satisfactory. It still enjoys much of the impetus given by the labors and reputation of Franklin G. Adams. The statistics furnished from the record show the usual quantity of accessions in all lines, while the observations I have been enabled to make point to an increased interest, and great possibilities when suitable conveniences are provided for the collections of the Society.

In no branch of public administration or business association is the activity of the people and the magnitude of the state of Kansas so vividly and completely shown as in the records and operations of the State Historical Society. The scope of its organization and work is probably broader than that of any similar institution in the country. On its shelves and within its cases are embraced the results of forty-five years of world-famous political and social controversies, the thought, discussion and accomplishments of a hundred religious, fraternal, civic, reform and business associations, the industrial energy and force and the individual biography of all classes of citizens, from those of prominence to the humblest, which have constituted the warp and woof of the most conspicuous and advanced commonwealth on the globe.

The duty of such wide collection elsewhere is generally distributed through a variety of agencies, but in Kansas the functions of this Society cover all. Within these rooms the state centers; here every movement of its people, the record of the individual in politics, business, literature, or otherwise, is gathered and closes. Several local communities find here records of their own they do not possess themselves. The men who founded this Society and guided it in its earlier years may not have builded better than they knew, but they builded far greater than anybody dreamed of. The Society is not alone a gatherer of historic incidents, but its chief duty seems literally to be the extension and preservation of the lives of the women and the men who have made the state.

In a recent article Hon. E. F. Ware says: "Next thing to having heroes is having historians. A hero who does not get into history is practically wasted. Heroism without history is like a banquet with-

out a guest. The great charm of Kansas is the fact that it has had both heroes and historians. A good printed history is like a bank. In it the valuables and the jewels of the state are kept. Into this bank goes the surplus greatness of the people and of the state." There could be no better statement of the organization, purposes and results of the Kansas State Historical Society.

During the biennial period closing with the 31st of October, 1900, there have been added to the library 2024 volumes of books; 7001 unbound volumes and pamphlets; 3026 volumes of newspapers and periodicals; 2158 single newspapers and magazines containing matter of historical interest; 335 maps, atlases, and charts; 762 manuscripts; 513 pictures and other works of art; 123 pieces of scrip, currency, and coin; 304 relics and miscellaneous contributions; 477 war relics. Thus to the library proper of books, pamphlets, newspapers and periodicals during the two years have been added 12,048 volumes. Of these, 11,777 have been procured by gift and exchange, and 271 by purchase.

As we are closing the twenty-fifth year since the organization of the Society, the following statement of the yearly growth from 1876 to October 31, 1900, may be of interest:

These figures represent the labor of twenty-five years in gathering the record of forty-six years, practically, of white settlement, including such Indian operations and military and other explorations obtainable antedating that period. It is most complete, and yet there is much missing. This vast accumulation of priceless matter has cost the state but an insignificant sum, aside from quarters in the capitol and some very ordinary salaries, being the gift of many earnest and enthusiastic citizens, prompted by a state pride nowhere surpassed. An abiding faith that suitable accommodations would ultimately be furnished the Society's collections has always existed, but an increased interest during the year just closing, incident to an historic revival upon the close of the century, assures me that when this great collection mounts the elevator, and leaves the musty cellar and the floor of the dingy corridors and cramped quarters in the basement, for the heavenly sunlight and breezes of Kansas to be had on the fourth floor of the capitol building, the people of Kansas will pour in treasures in increased volume. We all know that many strange and remarkable people live in Kansas—men who have cut much figure elsewhere—and a year's experience in this position satisfies me that a museum of startling variety and worth can be had by the state when suitable quarters for the same are known to exist.

The Kansas State Historical Society and its great work are the result of a resolution adopted by the Kansas Editorial Association at Manhattan, April 7, 1875. The resolution was introduced by Daniel W. Wilder. Floyd P. Baker, Daniel R. Anthony, John A. Martin, Sol. Miller and Geo. A. Crawford were named as a committee to organize the Society and appeal to the legislature for certain aid. The Society started with one bookcase in the office of the auditor of state, when Mr. Wilder was auditor, and John Francis, treasurer of state, granted his clerk, Franklin G. Adams, sufficient time to attend to it. The new enterprise shortly expanded until it was granted a lonely corner ten or twelve feet square under the stairway leading to the gallery of the senate chamber in the old east wing. It has constantly grown faster than the accommodations possible in the progress of the state capitol, and now, at the end of its quarter of a century, it leaps to the very top.

I can conceive of no more fitting or happy celebration of our quarter-century anniversary than the change of quarters determined upon. The legislature of 1895 granted the Society the use of both floors of the east wing under the senate chamber, but it has been apparent for a year or so that the space would not be ample or the location satisfactory. There was no direction in which the collection might grow, it would be divided between two floors, and in the proper adjustment

of space for the administrative departments it was altogether inconvenient. Then, too, the east wing is thirty years old, and is in need of overhauling in order to conform with the main building. Through the thoughtful consideration of the members of the executive council, the whole of the south wing on the fourth floor was tendered the Society in lieu of the space in the east wing. The executive committee of this Society promptly met and accepted the same, waiving all rights granted by the legislature to the east wing. Many directors and friends of the Society were consulted, and unanimous pleasure prevailed with them, while the relief to those promoting the work on the building in getting our material out of the corridors on the ground floor and out of the cellar will be marvelous.

These new quarters will afford the Society 9000 feet of floor space and 1100 running feet of wall surface, sixteen feet high, in well-lighted rooms and portions of the corridor. The rooms are ready, excepting the making of a couple of archways and two or three doors. Six rooms will be furnished immediately, and two others later, now reserved for legislative committee purposes this winter. The fourth floor will afford ample room to spread for a generation. This move is a very happy solution of the difficulties under which this Society has always labored.

For the twelve months ending with November 30, 1900, there were 16,256 visitors or sightseers in these rooms, besides 3552 patrons. Of the patrons, 2162 called for and used 8370 volumes of newspaper files and 3191 used general historical publications, including 1021 Kansas books. During the same period there were 1953 letters written, covering all sorts of historical and public information, and 2431 formal acknowledgments, notices, etc., mailed. The problem many people see ahead for this Society and the state is the space which will some day be required for the newspaper files. We have now 23,907 volumes. The count we have kept shows that more than one-third of these volumes are used each year, which strikes me as being a greater per cent. than of any other line of publications issued. When these files are no longer on the floor, requiring the removal of a wagon-load to get one volume, their use will be far greater. There is a growing disposition to depend upon this Society for everything in the way of public record. There is one county in the western portion of the state, organized in 1872, which does not possess the scratch of a pen showing who held certain public positions prior to 1891, but this Society can show back to 1876.

The task of newspaper clipping has been faithfully followed for years, until the files of the Society embrace a large amount of biography, Kansas literature, local history, and clippings showing growth of state institutions, railroads, agriculture, etc., put away in scrap-book

style. Sketches of hundreds and hundreds of the citizens of the state who have passed away, and the transactions and criticisms of public, professional and business men and women of to-day, are to be found here. This work goes back thirty or forty years, and its interest and value cannot be measured. Recently the biography has been sorted out and bound, alphabetically, closing with the end of the year 1900, and it makes about sixty volumes. We have seven large volumes containing all that was published in the newspapers concerning Kansas in the Spanish-Philippine war. Volume 1 is devoted to the general preliminaries of the war, in the first quarter of 1898; volume 2, to the record of the Twenty-first, Twenty-second and Twenty-third Kansas regiments; volumes 3, 4, 5, and 6, to the Twentieth regiment; and volume 7, to Funston, Metcalf, Little, Elliott, Alford, Boltwood, Buchan, Hamilton, Snow, Lindsey, Fitch, Beck, White, Trembly, Barshfield, and others—matter all arranged chronologically as near as practicable. Including local history, there are over 200 volumes of these clippings. The biographies, running back to the territorial period, including the veterans of the civil war and the sturdy and heroic men and women of the frontier, will inspire Kansas boys and girls until the day when the elements melt with fervent heat.

An important contribution to the collections of the Society was made June 30, 1899, by Hon. John Martin, of Topeka. It includes 373 single copies of forty-seven different newspaper publications, in eastern Kansas and western Missouri, covering the years 1855, 1856, 1857, 1858, 1859, 1860, and others bearing various dates through the civil war, together with a number of copies of thirty-seven different Eastern and Southern newspaper publications appearing during the Kansas troubles. Many of the border publications were on the Southern or pro-slavery side of the controversy, which element is very slimly represented in our files, and hence are a distinct addition. The *Kansas National Democrat*, published at Lecompton from about July, 1857, until early in 1861, was edited in turn by Robert J. Walker, Frederick P. Stanton, Hugh S. Walsh, Samuel Medary, and William Brindle. Think of such a combination as this writing columns every week for years, representing the national and territorial administrations, during the most exciting period of the Kansas struggle, and not an issue outside of the thirty-two copies furnished by Judge Martin known to exist. The utmost endeavor has been made by this Society to obtain files of the Lecompton papers. Judge Martin's contribution also contains many pamphlets and legal papers bearing upon the inception and infancy of enterprises now ranking among the largest in the land. I quote from Judge Martin's letter:

These documents I regard as of value, throwing much light and giving much useful information in respect to the early settlement and history of Kansas, and of

public opinion prior to and during the civil war, in the state of Kansas. I part with these documents with some reluctance, though I find it inconvenient to keep and give them such public use as they deserve, and I therefore have come to the conclusion that they will be of more value in the archives of the State Historical Society than in my possession. I am quite certain that the future impartial and intelligent historian of the state will find much in this large list of documents that will be interesting and greatly aid him in preserving and presenting the truth of current events.

This donation by Judge Martin recalls the fact that we have but a limited number of newspaper files prior to 1870. We have forty-six volumes preceding the civil war, confined to counties as follows: Atchison 6, Chase 1, Coffey 1, Doniphan 4, Douglas 14, Leavenworth 7, Riley 2, Shawnee 9, and Wyandotte 3. We have fifteen volumes of Missouri papers during the fifties. We have bound files from the following counties preceding 1870: Bourbon, Chase, Coffey, Franklin, Geary, Johnson, Lyon, Marshall, Morris, Osage, Pottawatomie, and Washington. Papers were printed in other localities prior to that time, but this Society was not organized soon enough to catch them. Copies of many of them are doubtless yet in existence, and they should be filed with us, now that we are to have ample means and space to care for them. A very large proportion of those we have represent the free-soil side. The Society paid seventy-five dollars for four volumes of the Leavenworth *Herald*, pro-slavery. Complete files of the *Squatter Sovereign*, pro-slavery, exist somewhere in Montana, but much correspondence has failed to get a tender of them or a price stated for them.

Our records show that of newspapers and other periodicals now being published in Kansas there are, in all: 51 dailies, 634 weeklies, 116 monthlies, 11 quarterlies, 14 semimonthlies, 4 semiweeklies, 2 bimonthlies, and 5 occasionals; or a total of 837. These figures do not include the Kansas City, Mo., papers, all of them being practically Kansas publications, and each of them continually extending favors in aid of the work of this Society. The regular issues of all these are being given the Society by the publishers and are bound in annual or semiannual volumes.

I would respectfully suggest to the Society that some consideration be given to a change of dates for the annual meeting, the end of the fiscal year, and for closing the accession record. All the state accounts in every department close with the 30th of June, whereas the books and accounts of this Society close with October 31. This was doubtless necessitated by the date of the annual meeting, the third Tuesday in January. The publication of all state reports is due in November and December, covering transactions up to the 30th of June preceding. Hence the proceedings of our January meeting are not published

until they are two years old, unless by special favor the executive council grants a publication out of the ordinary, as was done last spring. If the usual routine had been followed to-day, one-third of the directory published in this biennial report would have been out of office, and the names of their successors would not appear for two years. The records should close on the same date with all other state business, with an annual meeting to be held in the latter part of November, and then up-to-date reports could be made to the legislature. As it is, if we wait to publish our proceedings we are too late for the legislature. Historical articles two years old always pass, but business transactions of a similar age are uninteresting. A change of this character need not interfere with a popular meeting during the session of the legislature, say in February, when there is less confusion from legislative organization and United States senator and state printer elections. Since the organization of this Society, and the establishment of our dates, twenty-five years ago, the state has expanded until such a readjustment seems necessary.

In our sixth volume of collections was published a catalog of the Kansas territorial and state documents in the library of the Society, embracing the titles of nearly complete sets of everything published by Kansas from 1854 to 1898. This is a remarkable showing. No other state has saved such a collection, or can exhibit such a complete catalog of what it has published.

This list is but a forerunner of what the Society has undertaken and almost completed. For the past ten years a catalog of the materials published in books, pamphlets and magazines, by Kansans and about Kansas, has been steadily growing and nearing perfection. Our Kansas library, besides embracing books and articles on Kansas literature, history, education, biography, science, politics, etc., covers also the field of social life, and to one unfamiliar with this feature of our activities the list of annuals in our library would be a complete surprise. It embraces the reports and journals of our various church denominations, secret and fraternal societies, loan institutions, premium lists of county fairs, reports of county and city superintendents of public instruction, reports of private institutions of learning, charitable societies, medical and other scientific associations, legal societies, railroad corporations, etc. It is proposed to devote a room in the new quarters to the Kansas portion of the library, including cases for scrap-books, maps, photograph albums, portfolios, and unframed pictures, with accommodations for those desiring to consult them.

Card catalogs have been made of our collections of manuscripts and pictures, and are being added to as accessions to these departments come in. Although the manuscripts have been quite fully in-

dexed by authors, there are still several collections to receive author cards. The subjects, too, need further amplification. The modern conveniences for arranging the manuscripts when placed in our new vault will largely facilitate their classification and use.

The relics of the Society, though listed in accession records as received, have not been separately cataloged. This we hope to do as the articles are transferred to the new quarters.

The general library of the Society is classified by the Dewey decimal system, rendering it comparatively easy of reference, in spite of the fact that it still remains uncataloged, with the exception of a portion of the books pertaining to history.

During the year the Society lost four of its directors by death—Col. Cyrus K. Holliday, Mr. Henry Kuhn, Hon. L. D. Lewelling, and Mr. Brinton W. Woodward. The material, political and literary life of the state, and good citizenship generally, enjoyed great contributions from these gentlemen. All were active and painstaking in the work of this society. Proper memorial papers have been solicited.

A very lifelike oil painting of Judge Franklin G. Adams, your secretary for twenty-four years, has been presented to the Society by his children. The Kansas Editorial Association, at its annual meeting in Fort Scott, January, 1900, requested permission of the state authorities to place a bronze slab to the memory of Judge Adams in the wall, and this will be done through the contributions of Kansas editors.

An edition of 4000 of the sixth volume of the collections of the Society was issued during the year. There has been an unusual demand for it. The criticisms of the papers published are of importance in administering the duties of this position. Volumes 1, 2 and 3 are out of print; there are 200 of volume 4 and 100 of volume 5 on hand. There are calls for them every week. Of our biennial reports, volumes 1, 2, 4, 8 and 9 are out of print, and volumes 3, 5, 6 and 7 are limited.

The executive council have been exceedingly liberal toward the Society in the matter of printing and binding. And in their designs for furnishing the new rooms for the Society, they are broad-gauged and liberal, but judicious, showing an anxiety that the Society's work and collections shall be provided for, commensurate with its importance and value, and in harmony with the character of the capitol building.

GEO. W. MARTIN, *Secretary*.

MEETINGS, 1899-1900.

MEETING OF THE BOARD OF DIRECTORS—JANUARY 17, 1899.

The twenty-third annual meeting of the board of directors of the Kansas Historical Society was held in the west rooms of the Society, Tuesday afternoon, January 17, 1899, commencing at two o'clock.

In the absence of the president, John Speer, who was unable through illness to attend the meeting, George W. Martin was called to the chair. Franklin G. Adams also being ill, the assistant secretary was requested to act in his place.

The following members of the board were present: Geo. W. Martin, D. W. Wilder, Mrs. Bina A. Otis, Peter McVicar, Eugene F. Ware, John Guthrie, A. B. Whiting, John G. Haskell, William Sims, C. K. Holliday, F. P. Baker, Frank C. Montgomery, Harvey D. Rice, William H. Barnes, W. L. Brown, E. B. Cowgill, Miss Lucy D. Kingman, J. B. Remington, A. R. Taylor, Fred. Wellhouse, L. D. Whittemore.

D. W. Wilder, for the committee on nominations, reported a list of thirty-three members of the board of directors for election at the annual meeting of the Society in the evening, and officers and honorary and corresponding members for election at the evening meeting of the board. The report of the committee was accepted.

On the motion of D. W. Wilder, the following resolution was unanimously adopted:

Resolved, That the secretary of this Society be requested to prepare a circular and send it to every editor in the state, suggesting the timeliness of preparing histories of every town, city and county in the state, as a fitting patriotic memorial of the end of the century. A request similar to this was made to the nation by the centennial commissioners in 1874, and was appropriately responded to in 1876 by people in all parts of the union, Kansas being a generous and distinguished contributor.

John Guthrie reported that he had prepared a bill for submission to the legislature, providing for the collection and preservation of vital statistics by the state. After a brief synopsis of the bill by John Guthrie, and remarks upon the subject by members of the board, the matter was withdrawn by consent, and referred again to the committee for consideration.

E. B. Cowgill then made the following report, which, on motion, was adopted:

Your committee on cooperation of local historical societies with the State Historical Society begs leave to recommend that each county or other local historical

society be entitled to one delegate to the State Historical Society, who shall have all the rights and privileges of membership in the State Historical Society, including the right to be elected a director or officer of said Society, the right to take part in the discussions, and the right to vote. It is further recommended that every such county or other local historical society be invited to deposit in the library of the State Historical Society such historical collections as it shall make.

The following resolution was then offered by George W. Martin, and seconded by S. A. Kingman with appropriate and forceful remarks:

Resolved, That the executive council is respectfully memorialized to comply with concurrent resolution No. 22, adopted by the legislature of 1895, granting to the Historical Society for its library and museum the two floors of the east wing below the senate chamber, upon the removal of the state library.

After a lengthy discussion upon the subject of additional rooms, the resolution was adopted.

S. W. Williston, of the state university, then read his paper on "An Ancient Sod House in Western Kansas."

On motion of Samuel A. Kingman, the thanks of the Society were accorded Doctor Williston for his very interesting paper, and a copy was requested for publication in the collections of the Society.

J. C. Price, of Republic City, was then invited by the chair to make some remarks explanatory of the objects of the Pawnee Republic Historical Society, and of the proposed purchase by the state of the village site. He responded at some length, and presented, in the name of Mrs. Elizabeth A. Johnson, of White Rock, a fine crayon portrait of Capt. Zebulon M. Pike.

At the close of J. C. Price's remarks, a copy of a bill prepared for presentation to the legislature by F. M. Woodward, member from Republic county, was read for the consideration of the board, and, on motion of Peter McVicar, was referred to the legislative committee.

On motion of D. W. Wilder, the thanks of the board were extended to J. C. Price, and he was requested to put his remarks in writing for publication in the minutes of the meeting.

E. F. Ware made a brief verbal report for the committee on J. V. Brower's Coronado investigation, stating that the committee, composed of John Guthrie, L. R. Elliott, and himself, had examined the proposition to continue the investigations of J. V. Brower, and believing that the investigation and publication of the result by the Society would require an outlay which the Society could not afford, the committee decided adversely to the proposition. The report of the committee was accepted.

The following report of the committee on the Connelley collection

of Wyandotte Indian manuscripts was approved, and the committee discharged:

The committee appointed by the State Historical Society, composed of Wm. A. Peffer, L. D. Whittemore, John Speer, F. W. Blackmar, and W. H. Carruth, agree that the Connelley collection is well worthy of deposit in the files of the Kansas State Historical Society, and are of the opinion that the legislature, upon proper information, will appropriate funds sufficient to make reasonable compensation for the collection, and they would be pleased if W. E. Connelley should find it convenient to place the collection in the care of the Society for preservation, and for submission to the proper committee of the legislature, at its next meeting, and in case Mr. Connelley does so place the collection, the Society will undertake to make proper representation as to their value as materials of history.

W. E. Connelley, of Beatrice, Neb., being detained at home through illness, George W. Martin, of Kansas City, the former home of Mr. Connelley, stated the subject of his address to be "The First Provisional Government of Kansas," and said, as the paper was lengthy, he would not attempt to read it. Mr. Martin said further, that Mr. Connelley probably knew more about the history of the Wyandotte Indians than any one now living, that he was an indefatigable collector of the materials of the history of the tribe, and was an accurate and painstaking historian.

On motion of John Guthrie, the address was ordered to be printed in the collections of the Society.

The meeting then adjourned.

To the Board of Directors: Your executive committee, whose duty it is under the by-laws of the Society to examine and audit the accounts and vouchers of the secretary and treasurer of the State Historical Society, would report that they have examined the same and find them to be correct, and as given in the report of the secretary and treasurer herewith presented.

JOHN MARTIN,
WILLIAM SIMS,
A. B. WHITING,
Committee.

A meeting of the executive committee of the Kansas Historical Society was held at two P. M., November 27, 1900, to consider the question of rooms for the Society. There were present John Martin, William Sims, A. B. Whiting, George A. Clark, and E. F. Ware. The following resolution was unanimously adopted:

Resolved, By the executive committee of the State Historical Society, that the proposition of the executive council to assign for the use of the Society all of the south wing of the fourth floor of the state capitol, except two rooms on the northwest corner reserved until the close of the legislative session of 1901, is hereby accepted, and all claims of the Historical Society under concurrent resolution No. 22, adopted by the legislature of 1895, are waived.

Adjourned.
